

Steve,

Here is our estimate of 137.712 exemptions from 1997-2007. There is no flag for these so I estimated it by looking at M11 crimes that were committed after April 1, 1995 and got a sentence that is less than the M11 sentence. Sometimes the crime commit date is missing so there is a small percentage that may have committed the crime before 1995 that aren't actually getting the exemption but are just pre-m11 (this will be a larger problem for the years closer to 1995). I also found a small number of cases that were convicted of lesser crimes but showed up in the DOC data as a M11 crime (ex – an Assault II Attempt that shows up as an Assault II). I don't think there are many of these but it is also a potential data error.

Let me know if you have any questions,
Mike
